CLINICAL PRACTICE PROTOCOL - ACUTE CHEST PAIN

Guideline Ref: ACC/AHA 2026 Clinical Pathway

Standardized Emergency Department Triage:

1. 12-lead electrocardiogram acquired within 10 minutes of presentation.

2. High-sensitivity cardiac troponin drawn at baseline (0h) and 3h.

3. Continuous telemetry monitoring for dynamic ST segment changes.

Quality metric: Time to first medical contact < 15 minutes.
